2025 Leapfrog ASC Survey Scoring Algorithms

<https://www.leapfroggroup.org/asc>

This document includes the scoring algorithms for the 2025 Leapfrog ASC Survey. The scoring algorithms are organized by section:

- [What's New in 2025](#)
- [Change Summary Since Release](#)
- [Section 1 Patient Rights and Ethics](#)
- [Section 2 Medical, Surgical, and Clinical Staff](#)
- [Section 3 Volume and Safety of Procedures](#)
- [Section 4 Patient Safety Practices](#)
- [Section 5 Patient Experience](#)

For a hard copy of the Leapfrog ASC Survey, which includes measure specifications, endnotes, and FAQs, please visit the [Survey Materials webpage](#).

Leapfrog is committed to data accuracy. Please carefully review Leapfrog's data accuracy protocols on the [Data Accuracy webpage](#).

Scoring and Public Reporting Overview

Once a facility submits a Leapfrog ASC Survey via the [Online ASC Survey Tool](#), the submitted responses will be scored using the algorithms detailed in this document. Only those responses that have been submitted will be scored and publicly reported; saved responses will not be scored or publicly reported.

Facilities that submit a Survey by the [June 30 Submission Deadline](#) will be able to view their Survey Results on Leapfrog's [public reporting website](#) on **July 25**. In addition, these facilities will be able to preview their Survey Results, including their CMS data for ASC-1, ASC-2, ASC-3, ASC4, ASC-12, ASC-17, and ASC-18 (if applicable) on the [ASC Details Page](#) on **July 12**, about two weeks prior to the public release.

After July 25, the ASC Details Page and [public reporting website](#) will be refreshed monthly within the first seven business days of each month to reflect Surveys submitted or re-submitted between July 1 and November 30 and previously submitted Surveys that were corrected by January 31. Survey Results are frozen from February to July 25 of the following year. More information is available on the [Survey Deadlines webpage](#).

ASCs should review their Survey Results following their submission to ensure accuracy and completeness.

For the purposes of [public reporting](#), performance on each measure on the Leapfrog ASC Survey is placed into one of four performance categories:

- **Achieved the Standard** (displayed as four filled bars)
- **Considerable Achievement** (displayed as three filled bars)
- **Some Achievement** (displayed as two filled bars)
- **Limited Achievement** (displayed as one filled bar)

Additional scoring terms include:

- **Does Not Apply:** This term is used for facilities that report not performing a particular procedure or not having applicable patients for a particular measure.
- **Did Not Measure:** This term is used for facilities that report not measuring Medication and Allergy Documentation, Percentage of RNs who are BSN-prepared, and/or Patient Experience (OAS CAHPS).
- **Unable to Calculate Score:** This term is used for facilities that report a sample size that does not meet Leapfrog's minimum reporting requirements. For CMS measures ASC-1, ASC-2, ASC-3, ASC-4, ASC-12, ASC-17, and ASC-18, the term is used for facilities that do not participate with CMS or do not have a measure score published by CMS.
- **Declined to Respond:** This term is used for facilities that do not submit a Survey.
- **Pending Leapfrog Verification:** This term is used for facilities that have Survey responses that are undergoing Leapfrog's standard verification process.

Additionally, for ASCs that have obtained approval from Leapfrog to participate in the 2025 Leapfrog ASC Survey using limited data due to a cybersecurity event or natural disaster, the following footnote will be included alongside impacted Survey Results: "Results are based on limited data due to a reported cybersecurity event or natural disaster." For more information, please visit our [webpage](#).

Change Summary Since Release

This section will be updated if changes are made to scoring after this document's initial release on April 1, 2025.

Section 1: Patient Rights and Ethics Scoring Algorithms

1A: Basic Facility Information

This section will not be scored in 2025. However, some responses will be shown on Leapfrog’s public reporting [website](#). For example, Leapfrog will display the number of operating and/or procedure rooms.

1B: Billing Ethics

Facilities are scored on four aspects of their billing practices, including whether they provide payer-specific negotiated charges or cash prices on their website, the quality and timeliness of the billing statement or master itemized bill, the availability of a billing representative to negotiate a patient’s bill within 10 business days, and whether or not the facility takes legal action against patients for late or insufficient payment of a medical bill in cases where the facility did not have a written agreement in place specifying a good faith estimate for a medical service.

Billing Ethics Score (Performance Category)	Meaning that...
Achieved the Standard	<ul style="list-style-type: none"> The facility provides either payer-specific negotiated charges or cash prices on their website for commonly performed procedures, Provides every patient with a billing statement and/or master itemized bill within 30 days of final claims adjudication that includes all 10 required elements listed in question #3, Gives patients instructions for contacting a billing representative who has access to an interpretation service and has the authority to do all three required elements in question #4 within 10 business days, and Does not take legal action against patients for late or insufficient payment of a medical bill in cases where the facility did not have a written agreement in place specifying a good faith estimate for a medical service. <p>OR (applies to Military Treatment Facilities only)</p> <ul style="list-style-type: none"> The facility provides Department of Defense medical and dental reimbursement rates on their website for commonly performed procedures, Provides every patient with a billing statement and/or master itemized bill within 30 days of final claims adjudication that includes all 10 required elements listed in question #3, Gives patients instructions for contacting a billing representative who has access to an interpretation service and has the authority to do all three required elements in question #4 within 10 business days, and Does not take legal action against patients but is required by federal law to transfer delinquent payments to the Department of Treasury for action.

1C: Health Care Equity

Facilities are scored on whether they meet the requirements for collecting patient self-reported demographic data, training staff responsible for collecting demographic data, stratifying at least one quality measure, and additional steps the facility takes once this data is collected and analyzed.

Health Care Equity Score (Performance Category)	Meaning that...
<p>Achieved the Standard</p>	<ul style="list-style-type: none"> • The facility collects, at a minimum, patient self-identified race, ethnicity, and preferred written or spoken language data as described in question #1, • Trains staff responsible for collecting the self-identified demographic data from patients as described in question #2, • Uses the patient self-identified demographic data to stratify at least one quality measure as described in question #3, • And has done at least two of the three remaining elements: <ul style="list-style-type: none"> ○ Has updated or revised a policy or procedure to address the disparity or developed a written action plan as described in question #5 (if disparities were identified in question #4), OR ○ Shares information about efforts to identify and reduce health care disparities on its public website as described in question #6, OR ○ Reports out and discusses efforts to identify and address health care disparities with the facility’s leadership and governance as described in question #8. <p><i>Question #5 is not used in scoring for facilities that responded “No, disparities were not identified” or “Inadequate data available to determine if disparities exist” to question #4.</i></p>

Health Care Equity Score (Performance Category)	Meaning that...
Some Achievement	<ul style="list-style-type: none"> • The facility collects, at a minimum, patient self-identified race, ethnicity, <u>and</u> preferred written or spoken language data as described in question #1, • Trains staff responsible for collecting the self-identified demographic data from patients as described in question #2, • Uses the patient self-identified demographic data to stratify at least one quality measure as described in question #3, • But has not yet done any of the remaining elements: <ul style="list-style-type: none"> ○ Updated or revised a policy or procedure to address the disparity or developed a written action plan as described in question #5 (if disparities were identified in question #4), OR ○ Shared information about efforts to identify and reduce health care disparities on its public website as described in question #6, OR ○ Reported out and discusses efforts to identify and address health care disparities with the facility’s leadership and governance as described in question #8. <p><i>Question #5 is not used in scoring for facilities that responded “No, disparities were not identified” or “Inadequate data available to determine if disparities exist” to question #4.</i></p>

Section 2: Medical, Surgical, and Clinical Staff Scoring Algorithms

2: Medical, Surgical, and Clinical Staff**Certified Clinicians Present While Patients Are Recovering**

Facilities are scored on whether an Advanced Cardiac Life Support (ACLS) trained clinician, plus a second clinician, are always present and immediately available while adult patients are recovering and whether a Pediatric Advanced Life Support (PALS) trained clinician, plus a second clinician, are always present and immediately available while pediatric patients are recovering.

Certified Clinicians Present While Patients Are Recovering Score (Performance Category)	Meaning that ...	Meaning that ...
Achieved the Standard	While adult patients are recovering, the facility ensures an ACLS trained clinician, as well as a second clinician (regardless of ACLS training), are present at all times and immediately available in the building while an adult patient (13 years and older) is present in the facility.	While pediatric patients are recovering, the facility ensures a PALS trained clinician, as well as a second clinician (regardless of PALS training), are present at all times and immediately available in the building while a pediatric patient (infant through 12 years) is present in the facility.
Limited Achievement	While adult patients are recovering, an ACLS trained clinician, as well as a second clinician (regardless of ACLS training), are NOT present at all times and immediately available in the building while an adult patient (13 years and older) is present in the facility.	While pediatric patients are recovering, a PALS trained clinician, as well as a second clinician (regardless of PALS training), are NOT present at all times and immediately available in the building while a pediatric patient (infant through 12 years) is present in the facility.
Does Not Apply	The facility does not perform procedures on adult patients.	The facility does not perform procedures on pediatric patients.
Declined to Respond	The facility did not submit a Survey.	
Pending Leapfrog Verification	The facility's responses are undergoing Leapfrog's standard verification process.	

Board Certified/Board Eligible Physicians and Certified Registered Nurse Anesthetists

Information regarding board certification for clinicians is not scored in 2025. However, responses are publicly reported on Leapfrog’s public reporting [website](#) (i.e., Leapfrog displays whether or not all physicians and anesthesia providers authorized to perform procedures at the facility are board certified or board eligible).

Section 3: Volume and Safety of Procedures Scoring Algorithms

3A: Volume of Procedures

Responses to the annual volume of each procedure performed are not scored. However, responses are used to facilitate the search functionality on Leapfrog's public reporting [website](#) (e.g., allowing users to search for facilities that perform the procedure they need) and the information is publicly reported to inform purchasers and consumers about the facility's experience with the procedure.

3B: Facility and Surgeon Volume

Facilities are scored on whether they met the minimum facility volume standards and whether the facility's process for privileging its surgeons includes meeting or exceeding the minimum annual surgeon volume standards in the table below.

Procedure	Facility Volume	Surgeon Volume
Total knee replacement surgery	50	25
Total hip replacement surgery	50	25
Bariatric surgery for weight loss	50	20

Performance categories are assigned for each procedure as follows:

Facility and Surgeon Volume Score (Performance Category)	Meaning that for each of the procedures performed...
Achieved the Standard	<ul style="list-style-type: none"> The facility met the minimum facility volume standard for the procedure, and The facility's process for privileging surgeons does include meeting or exceeding the minimum annual surgeon volume standard.
Considerable Achievement	<ul style="list-style-type: none"> The facility met the minimum facility volume standard for the procedure, but The facility's process for privileging surgeons does not include meeting or exceeding the minimum annual surgeon volume standard.
Some Achievement	<ul style="list-style-type: none"> The facility did not meet the minimum facility volume standard for the procedure, but The facility's process for privileging surgeons does include meeting or exceeding the minimum annual surgeon volume standard.

Does Not Apply	The facility does not perform the procedure.
Declined to Respond	The facility did not submit a Survey.
Pending Leapfrog Verification	The facility's responses are undergoing Leapfrog's standard verification process.

3C: CMS Outcome Measures

Facilities are scored based on their performance on seven outcome measures collected and published by the Centers for Medicare and Medicaid Services (CMS): ASC-1: Percentage of patients who experience a burn prior to discharge from the ASC, ASC-2: Percentage of patients who experience a fall within the ASC, ASC-3: Percentage of patients who experience a wrong site, side, patient, procedure, or implant within the ASC, ASC-4: Percentage of ASC patients who are transferred or admitted to a hospital upon discharge from the ASC, ASC-12 Rate of Unplanned Hospital Visits After an Outpatient Colonoscopy, ASC-17 Hospital Visits After Orthopedic Ambulatory Surgical Center Procedures, and ASC-18 Hospital Visits After Urology Ambulatory Surgical Center Procedures.

Leapfrog will download the CMS data on the dates indicated in the Section 3C measure specifications in the hard copy of the Survey and match it with the CMS Certification Number (CCN) and National Provider Identifier (NPI) provided in the ASC Profile. The CMS data will only be scored and publicly reported for facilities that have provided an accurate CCN and NPI in the ASC Profile, reported volume for the applicable procedures in Section 3A, and submitted the Leapfrog ASC Survey.
